

TRANSFORM **U**

HOW TO STOP THE WHO
With Dr. Peter Breggin, MD

WORKBOOK

Peter Breggin, MD, has been fighting medical and scientific malfeasance for over 40 years. He is known as “the conscience of psychiatry” and is the author of over dozen book on Big Pharma corruption, drug withdrawal, and the power of empathy.

Breggin graduated from Harvard College with Honors and his psychiatric training included a Teaching Fellowship at Harvard Medical School. Following his training, he became a Full Time Consultant in the U.S. Public Health Service at NIH, assigned to the National Institute of Mental Health. Since then, he has taught at several universities, including Johns Hopkins ad the Washington School of Psychiatry.

This TransformU focuses on the terrifying proposal by the World Health Organization (WHO) to essentially override the national sovereignty of over 190 countries in the name of globalist control—and what you can do to stop it.

This will be delivered for a vote to the World Health Organization’s governing legislative body, the World Health Assembly (WHA). Unless we do NOT comply.

GOING DEEPER

When did you discover that the WHO is not a benign organization, but a globalist political actor?

What are your top three takeaways from this month's TransformU?

Dr. Breggin recommends calling your Congressman and State Senator IMMEDIATELY to urge a NO on this vote, which is happening May 22-29, 2022. In what ways can you spread the word, make noise, and draw attention to this grave threat to our country and way of life?

What other things besides actual diseases could Tedros (the first non-medical doctor to head the WHO) redefine as a “disease” to attack and manipulate other countries?

Jot down reasons to start thinking of yourself as an activist:

Why is it, do you think, that the Chinese Communist regime is at the hub of the wheel of so many of these tyrannical power grabs?

Notes:
